Acting

1. Sent Jack Smith to Watch. Combined Watch Report (dtd 13 Sept.) states: "The 11 Sept. Soviet statement on Cuba represents an effort to make more difficult any effective Western response to unilateral Communist strengthening of Cuban military capabilities while not directly committing the USSR to defense of the island."
2. Met with General Lansdale (presumably here) at 2:00. (Calendar Sheet.) General Lansdale called asking for this meeting to discuss "special activities with a group, and information that came out of the meeting yesterday at the White House," (Steno book)
